## **2. The Solid Waste Management Report-**

The college has a sprawling green campus and gives top priority to keep the campus clean and eco- friendly. The faculties and students are regularly advised to reduce waste. Sincere students put waste in separate bins kept at different places on the college campus; the solid waste is regularly collected by the garbage Panchayat. Waste is collected twice in a day. It is processed as per the nature of the waste. The college has a vermin- compost unit in which it is collected. To minimize the problem of waste disposal separate dust bins are kept, for dry waste wet waste. Separate dustbins have been kept in every room.

Organic waste is converted into bio-fertilizer by the vermi-composting plant developed by the college. Garden waste and other waste are collected from different areas of the campus. After the varmi compost is ready in due course it is harvested and used for plants on the campus. Dry waste mainly leaf litter is allow to decompose systematically over a period.

The wet waste from garden, other areas are collected and after the vermin composting is ready in due course it is harvested and use for the plants on the campus. Waste recycling system is maintained on the campus by utilising the sewage water to water the nearby trees. The boards with meaningful slogan is displayed to bring environmental consciousness among the student as well as stakeholders. Old newspaper, old answer papers and raw paper material (Raddi) it's sold out. Plastic ban; Notice are displayed in campus to refrain from use of plastics. Paper bags are encourage for use by students and staff members.
