Feedback Analysis 2022-23

As per the UGC and Maharashtra state guidelines, the affiliating University, Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon, has taken the lead in implementing a choice-based credit system (CBCS) in the curriculum since the academic year 2018-19. The University has meticulously designed the curriculum to meet the stakeholders' needs, demonstrating our commitment to providing a relevant and practical education. Collecting timely feedback from various stakeholders is a crucial part of this process, ensuring that the curriculum remains responsive to the changing demands of the academic and professional world. The College has a robust manual feedback system on the curriculum, which includes students, teachers, alumni and employers. The institution uses the feedback from the stakeholders to suggest improvements in the curriculum, further enhancing the quality of education we provide.

For the academic year 2022-23, a comprehensive feedback process was undertaken, highlighting the positive aspects of our institution. Stakeholders were asked to rate questions based on four scales: Very Good, Good, Satisfactory, and Unsatisfactory, and to answer one open-ended question. This thorough feedback is aimed at assessing teachers' performance, understanding the applicability and simplicity of the curriculum, and assessing the sufficiency of the facilities provided by the college.

The feedback forms collected from the stakeholders were analysed, and the analysis was presented to the College Development Committee and the Principal. In response to the feedback, the committee took necessary actions to improve the performance and quality of higher education, reaffirming our commitment to providing relevant and practical education.
